VALEDICTORY ADDRESS

OF

THOMAS J. DOUGHERTY,

MAYOR OF SOMERSWORTH,

TO THE CITY COUNCIL.

MARCH 19, 1912.

VALEDICTORY ADDRESS.

To the Members of the City Council:

GENTLEMEN: I have served the city of Somersworth in the capacity of mayor for the past three years, deliberating always as to the best procedure to meet the demands of the people. During my administration I have had but one aim in mind—to faithfully and impartially execute the duties of my office, according to my best ability and judgment.

At this time, the expiration of my term, I wish to extend my thanks to your Honorable Body, to the heads of the departments, and all connected with our city government, for their assistance and courtesies shown me at all times.

Just economy has been practiced in the use of the city's money, yet ever mindful that delay in making necessary improvements is a deterrent of the city's progress, and consequently not conducive to the welfare of the citizens.

Uniformity, as far as possible, has been attained in all the departments, and accurate accounts on all matters pertaining to city affairs have been kept.

Nearly all of my recommendations have been carried out. About two and one-half miles of the state road was built, which has been a great advantage to travel. The whole of Market street has been macadamized, making a business-like thoroughfare. Concrete sidewalks have been placed in different parts of the city, in fact, all that could be advantageously done.

A contract was made with the Twin State Gas & Electric Company for all-night lighting at the same price as formerly was paid for twelve-o'clock lighting service.

All the old arc lights were replaced by Tungstens, creating a decidedly progressive aspect to our city.

Our community has been safe-guarded by the installation of a new fire-alarm system, which has met with great satisfaction.

The question of garbage, serious and perplexing, has been discussed, and action taken. In consequence, garbage is collected the entire year, whereas formerly it was collected only six months in the year.

There were many minor matters which have been conscientiously attended to, but time is fleeting, and I shall now take advantage of the opportunity to congratulate His Honor, Mayor LaBonte, wising him success in his administration. He is a man of integrity, proved ability, and eminently fitted for the work.

In conclusion, may our city be always abreast of the age, and a type of the best American cities.

INAUGURAL ADDRESS

OF

PAUL LaBONTE,

MAYOR OF SOMERSWORTH,

TO THE CITY COUNCIL.

MARCH 19, 1912.

INAUGURAL ADDRESS.

To the Members of the City Council:

Agreeably to custom, we have met here at this time to be placed in actual possession of the offices to which we have been chosen by choice of the people. We are highly honored by our citizens, when we are chosen to fill the offices to which we have been elected, and I should be making ill return for kindness if I did not at this time express, in some degree, my thankfulness to those of our citizens who have so signally honored me with an election to the important office of Mayor of this city.

It matters but little how much we may have differed heretofore in municipal affairs, we are all vitally interested in the city of Somersworth, and it is obvious to even a casual observer that all matters pertaining to the city should be carried on in an economical and business-like manner. While we are performing our duties during our term in office we shall be criticised more or less, as most officials before us, but, notwithstanding criticism, let us conduct affairs so that when we have finished our labors we can feel, regardless of the outcome, that we have given our best efforts for the benefits of our city.

HIGHWAYS.

Even by those who have felt called upon to comment unfavorably concerning our highways, it must be admitted that a great deal of good work has been performed in this department during the last few years, particularly last year. For instance, the macadamizing of High street and Market street, last summer, made one of the most pronounced changes for the better in the appearance of our streets since I can remember.

At present we have macadam from Berwick bridge to Washington street, on High street. It appears to me that it would not be unwise to continue this work as far on the Dover road as Partridge Hill, so called, providing our financial condition will allow us to do so.

Quite a few concrete sidewalks have been laid within the last year, and other sidewalks have been improved and repaired, but there still remains much to be done in this line; in fact, there are so many sidewalks to be attended to that it would be almost an impossibility to properly care for all of them in one year, so all we can hope to do is to look out for as many as practicable, considering, at the same time, our other needs.

SCHOOLS.

Good work is being done in our schools, which is, without question, one of the most important departments of our city government. The superintendent and the corps of teachers have performed their work in a conscientious and able manner. In this department I shall always be in favor of a liberal appropriation, but it seems to me that there should be somewhat of a reduction from the amount of money spent by the school board during the last year. True, it is costing other cities more money, according to the number of students, than it is here, but, from a study of the situation, I am convinced that our schools could be carried on at a less cost than is the case at present.

WATER WORKS.

The water works is under the management of a board of three commissioners, elected by the city council. The financial condition for the past few years has been very satisfactory, but in the near future it may be necessary for the outlay of quite a sum, as a leak in the main at the elbow, corner of Wells and Rochester streets, caused by the vibration of the small high-pressure pump, should be thor-

oughly looked into by competent engineers and remedied, for the best interest of the city, and if necessary, to replace the same by a larger pump. The pumping station has been thoroughly overhauled and repairs made when necessary and is now in good working condition.

FIRE DEPARTMENT.

As to our fire department, the ability and fearlessness, also the efficiency of the department as a whole are worthy of favorable comment.

Our fire alarm system, which we have had for some over a year, has been a great addition and aid to us, when the city has been threatened with what might have been a serious conflagration. The working of the fire gong has been far from satisfactory in a great many instances, and probably a change will need to be made. This matter came up before the mayor and council last year, and an appropriation of three hundred dollars, ($300), was voted, to remedy the fault. Upon investigation by a committee appointed for that purpose, it was found that, to make the change required, a sum approximating nine hundred dollars, ($900), would be necessary, and consequently the matter was not taken up further at that time. This question will require serious consideration on our part at the proper time, for the property of our citizens should be amply protected.

One thing further. Last summer we were harassed by many forest fires; later there was great confusion with relation to the payment of the men who had labored in suppressing the fires. I would suggest that immediate action be taken by your board with regard to this question, and a standard set as to the prices to be paid, in case a like instance should present itself.

FOREST GLADE CEMETERY.

Forest Glade cemetery, the last home of many of our

citizens, is a credit to our city, and the improvements now under consideration will, when completed, add greatly to this beautiful spot. The road-way, recently built, and the incidental straightening of the front line has obliterated the dangerous turn to the outside avenue at the gateway, besides adding a considerable amount of land for frontage, which, when graded and finished, will make a greatly-improved approach.

The past two seasons having been unusually dry, it was next to impossible to keep the grass green. It was therefore hoped that some means may be provided for extending the water pipes over to and covering the cemetery. Already the trustees have received several offers of donations from lot-owners for this purpose.

The board are even now, and have been, busily engaged in soliciting subscriptions from lot-owners and relatives of deceased persons, who lie in Forest Glade, for erecting a metal fence and gate-way. The responses have been hearty, and the amount thus far pledged is sufficient to justify the trustees in proceeding with the work. It is hoped that the sum necessary for completing same may be realized at an early date.

The trust fund is growing yearly, and now amounts to $15,558.35. This evinces confidence in the city to properly care for the last resting-place of friends and loved ones.

As in all other matters, new ideas have evolved in cemetery improvements and maintenance, and such of these as the money available will permit can well be left to the board of trustees who are managing affairs so ably and well.

PUBLIC LIBRARY.

Our public library, which is such a highly-important adjunct to our schools, is improving gradually from year to year, but both trustees and librarian are hampered greatly from lack of funds needed to make improvements in the

building and to purchase books. Nothing has done more to make great men in this world than great and good books, and I cannot emphasize too strongly the necessity of looking out for our library and its surroundings in a proper manner.

ELECTRIC LIGHTS.

A short time ago a new contract was entered into with the Twin State Gas & Electric Company, whereby lights are to be furnished the city by said company until August 4, 1918. This contract gives us lights all night, or from dusk to dawn, instead of merely lighting the city until midnight, according to the terms of a prior contract, with practically no additional expense.

At the last session of the Legislature a statute was passed giving the City of Somersworth power to go ahead and create a municipal lighting plant of its own, but it seemed unwise to enter into such a project at this time, for many reasons, hence the contract above mentioned.

The new system of all-night lighting appears to be giving almost universal satisfaction, and I anticipate but very little trouble, as far as the lighting of the city is concerned, for a few years, at least. Doubtless in one year's time we shall all wonder how we ever got along with our city having no streets lighted after twelve o'clock at night.

HEALTH.

The most essential feature of this branch of our city government is to get men in office who will enforce the law, without fear or favor. There is law enough, if used by the health officers, to keep all parts of this city in a sanitary condition that would be equal to that of any city in the state.

In the year last past garbage has been collected during the entire twelve months, which to me seems a vast improvement on our old plan of collecting only eight months

of the year. The piles of refuse and waste, inevitably great breeders of disease, which accumulated in former years during the winter months, have thus been done away with.

The Village Improvement society has been of great assistance to the city, in beautifying certain locations, and at the same time have rendered much good service in doing away with many things which were not conducive to good health, for all of which much praise and thanks are due said society from the community as a whole.

CONCLUSION.

In concluding, gentlemen, I want to call your attention to the fact that a great responsibility rests upon you to meet the questions which are to be presented to you, only a few of which I have called to your mind at this time. Remember your oath to faithfully discharge and perform the duties incumbent upon you in your respective capacities, according to the best of your ability. I would respectfully request that you confer with me at all times, when convenient, concerning matters which may come before you, for I believe we can be successful in our endeavors as city officials only by the co-operation of all in their work, and by giving due consideration to the opinions of each other, we may arrive at a satisfactory solution of the many problems which will come before us in the performance of our duties.

Let every man do his utmost to make Somersworth one of the finest cities in New England, and if each one does his work with such an idea in mind at all times, whatever success he may have, he will necessarily demand the respect and good-will of all those interested in our city's welfare.

of its tracks in and upon certain streets and highways, in said city of Somersworth, as follows:

Re-location of Track. "Beginning at a point on High street, in the centre of the track, as now laid, said point being 4.31 feet distant from the southwesterly corner of the Great Falls Hotel, and 53.82 feet distant from the northwesterly corner of said hotel, and running thence north, 41.50; west, 70.0 feet; thence on a curve to the left, whose radius is 540.0 feet, 293.3 feet; thence on a curve to the left, whose radius is 360.0 feet, 210.0 feet; thence north, 22.34, west, 273.0 feet, to a point north, 68.35, east of and 20.75 feet distant from the end of the present layout; said last described point being also 50.7 feet from the northeast corner of house No. 7 Market street, and 55.22 feet from the southeasterly corner of the house at No. 9 Market street;" above described lines to be the center line.

The above said re-location of tracks, shown on plan hereto annexed and made a part of this petition, which plan is marked as follows:—"Plan showing a re-location of Dover, Somersworth & Rochester Street Railway's track on Market and High streets, Somersworth, N. H., May 11, 1911. Scale, 1 foot, 20 inches. William A. Grover, Civil Engineer."

Wherefore your petitioner respectfully prays that said railway company may construct, lay, maintain, and use the tracks with suitable switches, curves, and connections within said city of Somersworth, over and upon said public highways, as aforesaid, and that you may make such orders in the premises, agreeably to law, as you see fit.

Dover, Somersworth & Rochester Street Railway Company.
D. A. Belden, President.

May 27, 1911.

The Dover, Somersworth & Rochester Street Railway Company, by its president, having filed in the office of the

city clerk of the city of Somersworth, the foregoing petition, it is hereby ordered that a hearing be had thereon, at the city council rooms, in the Chandler building, Orange street, in said Somersworth, on the first day of July, A. D. 1911, at 2 o'clock in the afternoon, when and where all persons interested may appear and be heard, if they see cause; and said petitioners are ordered to give notice of said petition and hearing by causing the said petition and this order thereon to be published in the Somersworth Free Press, a newspaper printed at said Somersworth, three weeks successively, the last publication to be at least fifteen days before said day of hearing.

In witness whereof, we, the mayor and councilmen of Somersworth, aforesaid, have hereunto set our hands and seals this twenty-ninth day of May, A. D. 1911.

ANNUAL REPORTS

OF THE

SEVERAL DEPARTMENTS

OF THE

CITY OF SOMERSWORTH

ENDING MARCH 1, 1912.

REPORT OF THE CITY SOLICITOR.

To His Honor, the Mayor, and the Honorable City Council of the City of Somersworth:

Herewith I submit my report for the municipal year ending March 31st, 1912.

At present there are four cases upon the docket of the Superior Court for the County of Strafford, in which the City of Somersworth is materially interested, namely: Nos. 732 Equity and 789 Equity entitled, Dover, Somersworth and Rochester Street Railway Company v. the City of Somersworth; No. 559 Equity, entitled, James H. Joyce v. the City of Somersworth and Charles P. Andrews, City Marshal; No. 889 Equity, entitled, James H. Joyce v. the City of Somersworth.

Nos. 732 Equity and 789 Equity are petitions for abatement of taxes. They will doubtless be disposed of at the next term of Superior Court.

No. 559 is the old case relating to the disposition of police officers' fees, under certain conditions, which has been on the docket since 1907; the time of and final disposition of this case are both very uncertain.

No. 889 Equity is a petition for an assessment of damages brought by James H. Joyce during the month of January, the present year. Mr. Joyce claims that certain property of his located on the Dover road has been damaged by reason of changes made when the state road was built. It was the opinion of your honorable body, when this matter was submitted for its consideration, that the value of the property in question had been enhanced rather than damaged by said changes, and that is the opinion also of your city solicitor. This case will be tried at the September term of court at Dover.

The police force has been faithful and efficient in the performance of its duties; the members of the night force

have been aided and the safety of the whole community has been greatly increased through the installation of an all-night lighting system during the last administration.

The dry-list contains fewer names than at any time for some few years and the probable tendency will be for it to remain smaller in numbers, the real benefit derived from its use in most cases being very doubtful.

Very few matters have come before the juvenile court for disposition during the past year, but the results are almost always for the best through this manner of handling young delinquents.

In concluding I wish to thank those who have aided me in the performance of my duties during the last year.

Respectfully submitted,

FRED H. BROWN,
City Solicitor.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

To His Honor, the Mayor, and to the City Council of the City of Somersworth:

Your library trustees submit their report of their doings for the fiscal year ending March 1st, 1912, including as a part thereof the report of the librarian, which covers the work of the library, its needs, and the disadvantages under which the work is carried on. The work of the library is most important in every way. It reaches or may reach every individual in this community. No public work in this city is more important. The appropriations for carrying on this work are inadequate to its needs. Larger appropriations would meet with the approval of all of our tax-payers. We earnestly urge you to visit the library and there ascertain its needs.

We deeply regret that Miss Frances D. Hurd, who for the past nine years has served as librarian, has found it necessary to resign. Miss Hurd has served the city earnestly, enthusiastically, and intelligently, and is entitled to the gratitude of all of our citizens.

Report of the Librarian.

To the Board of Trustees of the Somersworth Public Library:

Gentlemen: The report of the librarian showing the work of the library for the year ending February 29, 1912, is herewith presented.

THE YEAR'S GROWTH.

Number of volumes reported accessioned last year,		11,994
Added during the year,

Largest number any month,		1,520
Largest number any day,		170
Gain in total circulation over last year,		4,852
Gain in juvenile circulation over last year,		2,602

These figures give some idea of the work done in the

library during the past year. They show a marked growth and this under the most primitive conditions. The work of the library has entirely outgrown its present quarters. The up-to-date library does more than barely furnish books to its patrons; it seeks to furnish comfortable reading rooms both for adults and children; to supply their demands and create a desire for better reading; to furnish instruction and entertainment by lectures and stories; to satisfy a love for the beautiful by exhibitions of good pictures and in many ways to provide the things that otherwise are denied the majority. Especially do the children need these influences while there are so many places less desirable open to them. That 10,880 books were taken out by them shows there is an opportunity to reach and influence a good number, and with better accommodations twice that number might be reached.

Last spring several persons volunteered to tell stories to the children on Saturday afternoons. On these days between fifty and sixty small people crowded into a bare, cheerless room over the library, sitting two on a chair or on the tables, not caring where as long as they could listen to the stories. Their close attention showed their appreciation and well repaid those who gave their time. We hoped to establish this permanently, but owing to the press of the regular work and the lack of accommodations for caring for the crowd that came it has been impossible.

The children showed their interest and desire to help by giving an entertainment for the benefit of the library at the Colonial theatre last May. Miss Drew and Miss Curran assisted by other primary teachers worked very hard to make this the great success that it was. As a result $67.15 was netted and placed in the bank as a nucleus for a library improvement fund. We hope others, seeing the great need and opportunities for good here, will add to it until there is enough to do something to relieve the crowded conditions.

The cheerful willingness with which my assistants have always met the demands made upon them has added much to the library's usefulness and value.

Though this, my ninth report, nearly terminates my term of service with the library, it does not terminate my interest in its work and welfare. The past nine years have been very pleasant ones, notwithstanding the many problems that have presented themselves. The unfailing kindness and confidence of the trustees have helped to smooth many a rough place and for this I wish to thank you. I wish this great work and all connected with it greater success.

STREET COMMISSIONER'S REPORT.

Somersworth, N. H., March 1, 1912.

To His Honor, the Mayor, and the City Council of the City of Somersworth:

Gentlemen: In accordance with the provisions of the city ordinances, I herewith submit my report as street commissioner for the fiscal year ending February 29, 1912.

STREETS.

All streets have been kept clean, and also all highways cleared of stone or other matter liable to impair good travelling, and put in good condition, and where grading was necessary improvements have been made.

Six large receivers have been put in, two of which have been installed at the foot of each of the following streets, namely, Lincoln, Beacon, and Union, to receive the over-flow down those hills.

Six new crossings have been laid at the following points: One at the junction of Page and Prospect streets; one at Washington and Main; one at Green and Myrtle; one at Ford and Green; one across Green, from Myrtle to Ford; and one across Main street, at the junction of Main and Mt. Auburn streets.

STATE HIGHWAY.

We have completed the stretch of state highway from where we left off last year to the Dover line, a distance of about 1,300 feet.

MACADAM.

Macadam was relaid on Market street, from the Berwick bridge to High street; Market square and Fore street were also macadamized; and we have also made a great improvement to Elm street, by using the old macadam on same.

ROADS.

We have graded the old Salmon Falls road, so-called, between the residences of Daniel Sullivan and Albert C. Ham. The New Dam hill, between the Salmon Falls river and the Woolen mill, has been thoroughly graded, and put in good condition; and that part of West High street, between the stone crusher and the residence of Fred Whitehouse, has also been graded thoroughly. The Cemetery road was also put in good condition, and the old Dover road, from the Indigo Hill road to the Dover line, was thoroughly repaired. The outside district surveyors have continued in keeping each of their districts in the best of repair.

ROAD ROLLER.

We found that our old steam road roller was in very poor condition and not fit for good work, so we thought it for our advantage to purchase a new one, which we did, and the same has given great satisfaction.

BRIDGES.

The following bridges have been re-built: One across Brown's brook, so-called; one on Rocky Hill road; and also the one on Blackwater road, so-called.

SEWERS.

All the sewers about the city have been cleaned out regularly when needed and kept in proper condition to secure good drainage.

CURBING.

We have laid 2,575 feet of cement curbing, and expended nearly one-half of the sidewalk appropriation in this work alone, believing that in order to have good sidewalks we must have good foundations also. The curbing has been laid along the following streets: On the northerly side of Myrtle, from Green street to the Blanchette prop-

erty; on the northerly side of Mount Auburn, from Green to Union streets; on the easterly side of Mount Vernon, from Grand to Prospect streets; on the westerly side of Grove, from Grand to Prospect streets; and on the southerly side of Page, from Maple to Winter streets; also on Market Square, from High to Main streets.

SIDEWALKS.

As is generally known, our sidewalks needed attention, and we felt that all improvements in this part of the work should be made, as far as possible, of a permanent nature. Concrete walks have been laid on the following streets, namely: Myrtle, from Green street to the Blanchette residence, 336 yards laid; Mount Auburn, from Green to Union street, 307 yards laid; Mount Vernon, from Grand to Prospect streets, 532 yards laid; Grove, from Grand to Prospect street, 226 yards laid; Elm, 53 yards laid; Washington, 56 yards laid; and Green, 76 yards laid. There were also 50 yards of patching, where same was needed on the different streets.

RECOMMENDATIONS.

I still recommend that the laying of sidewalks be continued, and that such work be thoroughly and permanently done, and would also recommend the repairing of other macadamized streets, and have liberal appropriations made for improving same.

In closing, I desire to thank His Honor, the Mayor, and members of the city council, for their kindness and courtesy during the past year.

Respectfully submitted,

PETER PERREAULT, JR.,
Street Commissioner.

AUDITOR'S REPORT.

We hereby certify that we have examined the books and vouchers of the city clerk and find same kept in the form prescribed by city ordinances. The payments check with those made by the city treasurer and the money received by the city clerk is properly accounted for. We have also examined the books of the city treasurer, superintendent of water works, superintendent of Forest Glade cemetery, and clerk of police court, and find same correctly kept. The only accounts submitted for inspection from the city messenger are the monthly reports to the city council. We believe a book account of the transactions of this department should be kept and submitted to the auditors.

Respectfully submitted,

FRED K. WENTWORTH,
TIMOTHY COLLINS,
Auditors.

52	Fore and Elm streets.
54	Market and Prospect streets.

2–2–2	Brush fire.
2	Chimney fire.
3	Engineer's call.
1	All out.

SIGNALS.

One stroke of the bell is the all-out signal.

2–2–2 strokes of the bell is for a brush fire, or a fire seen at a distance, where the department is needed.

One stroke of the bell is the engineer's test.

The above signals are given only by the chief engineer.

GENERAL RULES.

Firemen, as well as citizens, should familiarize themselves with the following rules for giving alarms of fire:

1. Never pull a box for a fire seen at a distance.
2. Never pull a box while the alarm bells are ringing, not until a box has completed its four rounds. Two boxes cannot operate together, and neither will work if two are pulled at the same time. Never pull two alarms or two boxes for the same fire.

3. To ring in an alarm, break the glass in the key-box and open the outside door with the key. Pull down the brass crank seen inside, till it stops, then let go. Then let the box alone. The clock will be seen or heard to be running, and the alarm will follow in half a minute or so. Close the door, but do not try to remove the key, as it is locked in a track lock and can only be removed by a release key, which is carried by each engineer, who will, as soon as convenient, release and return it. Remember that the firemen will come directly to the box which has been pulled, and be sure that some one stays at the box to direct them to the fire.
4. Never pull an alarm for a fire seen at a distance. Never touch a box except to give an alarm of fire. Give an alarm for no cause other than actual fire. Don't give an alarm for a chimney fire.

REPORT OF CHAIRMAN OF SCHOOL BOARD.

SOMERSWORTH, N. H., March 1, 1912.

To His Honor, the Mayor, and the Members of the City Council:

Gentlemen: I herewith submit my report for the year ending February 28, 1912.

The only improvement of consequence during the year was the grading of the grounds on the Union street side of the Union street school; about $250 was expended, and the result is very satisfactory.

The committee, not having a suitable place to hold their meetings, fitted up an unused room in the Chandler building; the walls were painted, and new furnishings purchased, the whole outlay not exceeding $200. The room now presents a very attractive appearance.

For a complete account of school affairs, I would refer you to the superintendent's report.

Respectfully submitted,

THOMAS J. DOUGHERTY,
Chairman School Board.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the Honorable School Committee of Somersworth:

Gentlemen: During the year that has passed since my former school report, the work has progressed along the lines there suggested, namely, of thorough instruction in the assigned work, the maximum of attention to the needs of the individual, and departmental instruction in the High school.

The introduction in the grades of a practical, business system of writing, the adoption of the Gulick Hygiene Series, which treats not only of personal hygiene but also of community hygiene, a complete language series compiled from lessons tested in the class-room by some of the ablest teachers of English in New England, have increased the interest and unified the work.

While our advances have been made without any spectacular effect, the advance has still been made. The growth has been steady and sure, a growth of the best kind, for it produces a constant and dependable result.

All over the world the demand for industrial, or vocational, training is increasing. Teachers and laymen in urban and rural communities are demanding that the schools shall do something to prepare the masses of boys and girls for effective service in some industrial occupation, fit them to make a living and to contribute their part to the commonwealth.

How this shall be done and in what kind of schools, no one seems to know certainly and fully. Experiments of many kinds are being tried in many places. Much money is being spent for it, and much more will be spent, more or less wisely.

While our great cities are plunging into novel experiments with vocational schools, and ridicule is being poured upon the older schools, our educational thinkers are looking

on with regret, knowing that a separation between cultural and vocational schools means a stratification of society, such as some foreign countries approve, but America has never been able to tolerate. The student needs chiefly intellectual apprenticeship, contact with a larger personality, a broader sympathy, a keener insight, a sturdier character than his own. He needs to acquire right habits, right methods, and right appreciations. The world is held back from progress as much by men who have stopped growing, as by bad men. To secure teachers who are natural leaders, and supply them with material for constant growth, is to shape the civilization of the future.

The only safe guide in the determination of your policy for the educational institutions under your charge is the principle of service to your community. That does not mean that every study must serve an immediately practical end. The community needs men of breadth, of wide information, of mastery of the treasures of the past. It is a virtue to refuse to yield to the clamor of short cuts to professions which require leaders of personal power as well as technical skill. The true method is the blending of the practical and theoretical, the leading up into the practical in every department of study. In providing this service, we must be equally careful that we do not overburden the community. Much as we would like to think that certain steps were to be undertaken for the broadening of our work, we must not lose sight of the fact that the number of pupils in our schools makes the ratio of cost per pupil as high as it ought to be. What extensions may be made within the present cost may well be undertaken. With this in mind, one step without additional cost may be taken in the development of our system, namely, the introduction of sewing for the pupils in grades second to fifth inclusive, and for the girls in grades sixth to ninth inclusive. We could well employ one of our present teachers to undertake this work.

The question of health is important. The ability of the pupil to accomplish his work economically, for himself and the community, depends upon his physical state, therefore, I recommend, also, medical inspection of the schools, under the control of the board of health, for expert examination of pupils for correction, if possible, of any defects of vision and hearing, and the discovery and isolation of any contagious disease in its early stages.

If it appears wise to the board of education to undertake these two inexpensive departures, I believe it will add much to the motor, physical, and moral development of the schools.

Respectfully submitted,

FRANK S. SUTCLIFFE.

REPORT OF SECRETARY OF SCHOOL BOARD.

SOMERSWORTH, N. H., March 1, 1912.

To the Chairman and Members of the School Board:

Gentlemen: I herewith submit my report for the year ending February 29, 1912.

Secretary of the School Board duties change little from one year to another.

The rules of the board say that the board shall meet regularly the third Wednesday of each month. Secretary, in writing, gives notice of regular and special meeting to each member of the board.

True and full records of all proceedings of board and finance and claims committee meetings are kept by the secretary; the same are in his charge, and, upon request, are open for inspection to any citizen.

School enumeration, specified by law, shall be taken annually in the month of September.

Respectfully submitted,

JOHN E. SULLIVAN,
Secretary

Benediction.

Class Ode.

As we leave you tonight, dear old High school on the hill,
Unbidden, our eyes fill with tears.
We recall all the joy and the pleasure we've had,
During four of the happiest years.
As we think of our teachers so faithful and kind,
Of the friends that have proved fond and true,
Of the many glad hours we together have spent,
We now pledge our allegiance to you.

Oh, how oft we have climbed Prospect Hill to thy halls,
Free of care, with no thought but of joy!
Gaily laughing together, old classmates and friends,
We had scarcely a tear to annoy.
The sad time has now come when those schooldays must end,
And the future no one can foretell,
But we pledge thee devotion, remembrance, and love,
On this night, when we bid thee farewell.

REPORT

OF

WATER COMMISSIONERS

FROM

MARCH 1, 1911, TO MARCH 1, 1912.

WATER COMMISSIONERS.

Arthur J. Seavey, Chairman.
Charles F. Crockett, Clerk.
Fortunat J. Gagnon.

Arthur J. Seavey, elected March 26, 1907; term expires June 16, 1913.
Charles F. Crockett, elected March 28, 1908; term expires June 16, 1914.
Fortunat J. Gagnon, elected March 16, 1909; term expires June 16, 1912.

REPORT OF WATER COMMISSIONERS.

To the Honorable Mayor and City Council:

Gentlemen: In accordance with the city ordinance, your board of water commissioners herewith submit the following annual report for the year ending February 29, 1912.

Following the usual custom, the commissioners met at their office in the city building, June 16, 1911, and organized by electing Arthur J. Seavey, Chairman, and Charles F. Crockett, clerk. John Parsons was elected superintendent of the water works; James A. Flanagan, engineer; and Charles Michel, assistant engineer at the pumping station.

PUMPING STATION.

The pumping station carries its usual amount of insurance. At the beginning of the year it was found that the station and the machinery needed many repairs, which have been made at considerable expense. On the twentieth of January, the large pump broke one of its piston rods, and in using the small high-pressure pump to supply the city with water until the large one could be repaired, the vibration from it caused a leak in the main pipe, at the corner of Wells and Rochester streets, causing the city to be without water for twenty-four hours, and as the small pump is not large enough to do the work of the large one without causing trouble, we would recommend that it be replaced for a larger one capable of doing the work.

FILTER BED.

The filter bed has had its usual cleaning, and when the sand that has been removed is washed and replaced on the bed, it will be in good condition.

SERVICE PIPES.

Eleven new services have been laid during the year, making a total of 953.

METERS.

There have been added fifteen new meters during the year, making a total of 297 now in use.

Receipts and Expenditures from March 1, 1911, to March 1, 1912.

RECEIPTS.

Total construction,		$759 77
Total expenditures,		$14,531 76

Summary Account Showing Earnings, Receipts and Expenditures from March 1, 1911, to March 1, 1912.

Bills collected by superintendent,	$15,570 54
Bills approved,	14,531 76
Balance,	$1,038 78

Owing to the many repairs that have been made, and the laying of about eleven hundred feet of new pipe, the cash balance this year is greatly reduced.

Respectfully submitted,

A. J. Seavey,
Charles F. Crockett,
Fortunat J. Gagnon,
Water Commissioners.

WATER WORKS BONDS.

The following is a statement of the water works bonds, showing the date when they mature:

Three bonds of $1,000 each, maturing October 1, 1912.
Four bonds of $1,000 each, maturing October 1, 1913.

One hundred and thirty-two bonds of $1,000 each, maturing October 1, 1918.

Total amount of bonds, $155,000, with interest at four per cent.

REPORT OF SUPERINTENDENT.

To the Board of Water Commissioners:

Gentlemen: The following report of the superintendent for the fiscal year ending February 29, 1912, is respectfully submitted.

PUMPING STATION.

The pumps have worked continuously. The boilers have been duly inspected and favorable reports received from the Fidelity and Casualty Company.

A leak in the main, at the elbow, corner of Wells and Rochester streets, caused by the vibration of the small high-pressure pump, should be thoroughly looked into by competent engineers, and remedied, for the best interest of the city, and if necessary, to replace the same by a larger pump.

The pumping station has been thoroughly over-hauled, and repairs made, when necessary, and is now in good working condition.

STAND PIPE.

The stand pipe and a few minor leaks have been repaired during the year.

HYDRANTS.

Every hydrant in the city has been tested and repairs made when necessary.

DISTRIBUTION PIPING.

Leak in 8-inch main, Back street; leak in 10-inch main, Main street; leak in 8-inch main, Main street; leak in 16-inch main, Rochester street; leak in 16-inch main, at elbow, corner of Wells and Rochester street.

SERVICES.

Eleven new services have been laid during the year, making a total now in use of 953. Repairs have been made to many, owing to leaks, principally goose necks.

METERS.

There have been added fifteen new meters, during the year, making the grand total now in use 297, classified as follows:

Dwellings,	263
Dwellings and stores,	4
